## June 7, 2023 Program

**George Marshall:** Board and Chapter Member George Marshall discuss his adventure owning and personalizing his Wag Aero CUBy experimental aircraft. With pictures, anecdotes, and stories, George will take us through the history of the company, the aircraft's design and variations, and his personal story of acquiring this particular Wag Aero and all the changes he's implemented during his ownership... and those to come!! The aircraft will also be on display.

### No More Excuses for Not Flying

From Bob Gutteridge

Just in case you missed the article in Sporty's Pilot Shop's 'Air Facts Journal' on May 21, here is a quick review of one. Leading the list is an article titled "General Aviation Accessible Aviation Museum Directory" by Jim Adams. Mr. Adams and a friend decided a listing of aviation museums accessible without requiring surface transportation was needed.

With the decision made, they took the next year and put together a listing of museums in the US and Canada which meet the requirements. The list includes 176+ museums with their pertinent details, airport code, web addresses, phone numbers, etc.

The data has been written into a spreadsheet format available [here](#) or by downloading from the body of the referenced article. I do recommend reading the complete article to get the entire background of the author's efforts. And for those flying with Google Maps or Foreflight, layers have been written along with instructions

for integration.

Happy flying. Bob Gutteridge

## EAA Chapter 124 Board Meeting Minutes

No May Meeting

## EAA Chapter 124 General Meeting Minutes May 3, 2023

Meeting Convened 7:15 pm

The president welcomed new members and two people announced their interest in joining and becoming active members!

Builder's Reports- Bob Gutteridge mentioned that after weatherizing his engine through the wet months paid dividends when his engine fired up immediately ushering in flying season!

Flight Report- CJ Stephens recounted his maiden gyro-copter flying adventure made possible thanks to Paul Hollingsworth's evangelical interest in getting people aboard.

Young Eagles Report- The event was a fabulous event that ended up flying 60 kids. The next event is scheduled for the 23rd of June.

Treasurer's Report- The chapter coffers are stable, largely due to paid up rents.

Presentation- Camshafts, An Eccentric Pursuit Of Power  
Presenter, Dimitri "Deme Elgin

The speaker is a renowned expert in the field of camshaft development and he graciously shared his in-depth understanding of camshaft design. He highlighted the inherent trade-offs that attend every camshaft profile selection.

His uniquely specialized talents are sought out by a wide array of vintage engine enthusiasts who rely on him to either repair obsolete camshafts, or have him fashion a replacement from scratch.

Meeting Adjourned- 8:30 pm
